

HOMEWOOD EROSION CONTROL

PROJECT NO. 2848

SUPERVISORIAL DISTRICT 5

- VICINITY MAP -

- VIEW OF UNTREATED STREET DRAINAGE ON MEADOW ROAD -

PROJECT DESCRIPTION

The project is a drainage retrofit project, addressing the existing roads and drainage ways in the Homewood watershed. The project purpose is to bring the area, which consists of older established neighborhoods with narrow streets, eroded slopes, disturbed road shoulder and unpaved county roads into compliance with Placer County's storm water discharge permit. The project is in the planning stage. Water quality concerns will be addressed through source control, hydraulic controls, and treatment and conveyance structures.
